FLYRT MAGAZINE MAR 2021

Editorial

As we embark on another 365-day journey, RHK is truly grateful to share another year with our readers, fans, models, photographers, and everyone else who continues to support us.

2020 was filled with plenty of memories ... some good, some bad ... but memories nonetheless! The main takeaway from 2020, at least for me personally, was to count my blessings. Be grateful. Savor the moment. Breathe. Look for the positives in every situation. And hopefully I was able to convey that message to everyone I had an opportunity to work with. Even though we faced small obstacles and challenges, we had (and have) so much to be thankful for ... and a better day is always on the horizon!

With all of the challenges we faced in 2020, we were still able to continue our operations without interruption ... and had another great year! We released exclusive content every month, with over 25 all-new issues. We worked with new featured models, while some of our previously featured models returned with even hotter content!

All in all ... last year was a huge success!

In 2021, we hope to get back on our promo-tours, which give us the opportunity to meet and discover the world's hottest models. And, as always, our goal is to deliver the best magazines and products we possibly can ... our readers and fans deserve nothing but the best!

Again, thank you for everything ... I greatly appreciate YOU!

How long have you been modeling?

I started again a few months ago to pose for the shootings.

Who or what inspired you to start modeling?

I am a model for passion, I love to pose for sets and evaluate my skills and talents in various styles of photography.

How to Take a Stress-Free Holiday Road Trip

Holiday travel can be stressful, but it should be fun, too. Advance planning and proper car care can take much of the stress out of a holiday road trip and leaving you free to enjoy the ride.

Checklists for each aspect of the trip will help ensure that nothing important is left behind, and that you are safe and prepared in case of an emergency. When it's time for a holiday road trip, keep these tips in mind for smooth travels:

Check your ride: A complete car check before a road trip should include making sure the fluid levels are sufficient. Make sure wiper blades and the wiper mechanism itself is working properly. Check your lights, including brights, to be sure they are functional. And, last but not least, don't forget your tires. Tires are the connection between your car and the road, so be sure to examine the tread for signs of excess wear.

"Traction and tread are inextricably linked. The grooves in your tires are critical in helping to channel water away to allow the tire to grip the road," says Sarah Robinson, Michelin safety expert. "Making sure you're driving on tires with proper tread can be the difference between avoiding an accident and becoming part of it."

Be prepared: Equip your car with an emergency kit, including water, flashlight, blanket, jumper cables, extra windshield wiper fluid, cell phone charger, and emergency phone numbers for roadside assistance, as well as a contact person at your destination.

Map your route: Check your route in advance and, if possible, plan your trip for times with less traffic. If you are planning to use a map feature on your phone, use the voice component; if you don't have that, consult a paper map and get a sense of the route before you get behind the wheel.

Safety first: That means the driver focuses on driving. If you are the driver and need to check your phone, send a message, have a snack, or tend to a child or pet in the back seat, wait for a rest stop, or if necessary, pull over to the side of the road.

Watch the weather: Especially during winter holidays, knowing the weather in advance can help you plan to avoid a storm. If conditions are truly dangerous, the smart move is to postpone your trip until the weather improves.

A lot of photosets for calendars and magazines.

What are your modeling goals, short-term and long-term?

I want to continue getting more publications around the world.

EXCLUSIVE INTERVIEW

"The body is an art form..."

PHOTOS BY DON ANDERSON

P A G E 23

My name is Kendra Lynn! I'm located in Portland, Oregon, and will be turning 21 come this April! I started out doing fashion shows for Nordstrom at just 10 years old, and as much as I liked walking the runway- I just LOVE being in the studio. Modeling is something I am very passionate about!

How long have you been modeling? 5+ years.

Who or what inspired you to start modeling?

As a kid I participated in fashion shows, one was for Nordstrom. They would shut the store down and all of us participating in the fashion show would get to walk the runway and have our photos taken. I loved how it felt being on the runway and posing, so as I got older, I decided to do my first real studio photo shoot. I fell in love with it and have been consistently modeling ever since.

How would you describe your modeling style?

It seems as time has gone on, my style of modeling has only gotten edgier. I love boudoir and tasteful nudity. The body is an art form.

What is your most memorable moment as a model?

My most memorable moment as a model was being invited to visit the famous mansion in Florida known as the Sausage Castle, I met some fun and amazing people and plan to go back in the future.

What are your modeling goals, short-term and long-term?

My goal for this year is to hit 100 publications. In the future I want to be able to look back and know that I only grew throughout my long modeling journey. I hope to have a family someday and encourage my future children to follow their dreams as well.
